

Importing Modules

Lesson Outcomes

1. Know what a generic import is
2. Know what a function import is
3. Know what a universal import is
4. Have a basic knowledge of the random module

Generic Import

```
import random
```

```
print(random.randint(1,10))
```

Function Import

```
from random import randint  
  
print(randint(10, 20))
```

Universal Import

```
from random import *  
  
print(random())
```

Recap

1. Know what a generic import is
2. Know what a function import is
3. Know what a universal import is
4. Have a basic knowledge of the random module
